

MOTOHELL MP_49R_v1.0

Friday, 12 December 2008

MOTOHELL MP_49R_v1.0 This MP is for E398 with BL 07.D0 and E1-ROKR with BL 0A.02

Please be careful and match it with your phone Bootloader model!-----
 ----- Finally, we are able to finish this MP. :) This MP includes all the latest features, patches and some good skins.. :)

This MP is made with the help of the following Motohell members - Gayoe, are_goenk, Zh@ng-L14ng, 3Sixthy, EOG, Jay Chou, MotoManiacs and of course, with the support from Phil aka Exploited..

Main features:

- Original 49R firmware patched with over 70+ patches
- 6 cool skins including 5 non-released skins and the DRM matches with all the skin
- Elf enabled (Separate icon for ELF in Tools menu for each skin :))
- Full icon sets in each skin including the DRM icons
- Loud and clear sound for 49R firmware..

Now the tech side:

Firmware : R373_G_0E.30.49R (based on original firmware)
